SATURDAY, APRIL 14, 1888

In the call made by the Republican Central Committee it was announced that among the officers to be nominated at the convention to be held the 3d of September next is a County Assessor. During the session of the Legislature in 1883 there was passed an Act entitled "An Act in relation to County Assessors, their terms of office and compensation." Section 1 of which reads as follows: "There shall be elected at the general election in eighteen hundred and eighty-six, and every four years thereafter, in each organized county of this State, one County Assessor. Section 2 of said Act provided for extending the term of Assessors then in office, Section 3 for the salaries after 1884, and Section 4 for the repeal of Acts and parts of Acts that were in conflict with said Act. Section 2 was pronounced unconstitutional by the Supreme Court, but Section 1 stands unrepealed, and as advised no court has passed upon its validity.

It is important to the citizens of this county to know the reason for the action of the Central Committee in calling for the nomination of an Assessor for this county. Of course there is a reason, and one of which the public should be advised. The call is made over the signature of the Chairman of the Committee. The GAZETTE would be glad to inform its readers through General Alexander why an Assessor should be nominated.

MISSISSIPPI, through its legislature, asks Congress to pass a law withdrawing all government land in that State from sale, and allowing it to be acquired only by actual settlers under the homestead act. This action is the result of recent large purchases of timber land in Mississippi by syndicates of northern lumbermen. The request is a timely one, and it might be well for Congress to inquire if it is not wise to withdraw all the public land, except that classified as mineral lands, from the market. The government is certainly not in need of the money it is receiving from the sale of land. While up to the present Uncle Sam has been rich enough to give all a farm who applied for it in good faith and performed a moderate amount of labor on it, this liberality cannot be continued much longer, at the rate the land is being taken up by speculators. The land is worth more to the government to save for actual homesteaders, than it is to sell at \$1.25 to \$2.50 an acre. A man who takes up 160 acres of wild land and turns it into a farm within the time he is required to take his patent for the tract, is a citizen in whom the republic can take pride and one upon whom it can depend in time of need. The land, too, instead of being held for years in speculative hands, or instead of being stripped of what natural growth of worth there is on it, is turned into a productive possession whose annual yield benefits the owner and the country.

THE New York Mail and Express (Rep.) says editorially: There are so many vigorous and thriving Presidential bodies that we are not surprised to find occasional conflicts of opinion as to their relative proportions. Thus, while it is conceded that the Alger boom has, so far, swept everything before it in Michigan, it is doubtful whether the recent hospitable Republican demonstration that he received in California should be construed to have special importance. The probability is that California Republicans who have long admired and followed Senator Stanford, and who would gladly seize the chance to make him the national standard-bearer of the party, treated ex-Governor Alger with only a full measure of characteristic California hospitality. Of course their preferences are for their own favorite Senator, whose breadth of character, large and varied ability and splendid liberality, are known and honored by all Americans and are the pride of the State.

THE East still continues its fatuous disregard of the urgent demands of the West in the matter of the Chinese question. The latest instance is found in the conference of the Methodist churches of New England which have united in a memorial to Congress denouncing the restriction of Chinese immigration. If these good brothers think the secular press and secular people of California a benighted set of

infidels, yet they might at least have the grace to ask of the conference of their sect in that State what opinion it holds on the Chinese matter. The answer of the California conference might give these benighted New Englanders food for reflection.

SINCE France has given to the United States the colossal statue of "Liberty," it is eminently proper that an appropriate return should be made. A large number of ladies in the east, it is said, are actively engaged in preparing to inaugurate a scheme to erect in France a colossal bronze statue of Washington. The idea is a good one, the selection of the object the very best. The scheme if fairly launched and well managed will meet with popular favor.

A NEW YORK Commissioner of Immigration holds that Mormons come under the head of assisted immigrants and should not be permitted to land. His position has turned Mormon immigration to the Newport News and Chesapeake and Ohio route. Now if other Commissioners could be brought to the New Yorker's way of thinking, this incoming tide of prospective disloyal polygamists might be checked.

An old law is extant in Virginia which imposes a fine of fifty pounds of tobacco on a man if he absents himself from church for one month without a valid excuse. If such a law existed in Nevada, and was rigidly enforced in Reno, all the wholesale tobacco dealers in San Francisco would have to move to this town to enable our people to pay their fines.

ACCORDING to Commander McCalla of the Enterprise, Morocco has denied to the United States the same rights which have been freely accorded to other nations. This is apt to be the case with our relations toward all half-civilized nations, simply because we fail to assert ourselves, and Mr. Bayard has repeated that mistake in this instance.

SENATOR STEWART has brought the case of Fenclard, the citizen of Carson held to service in the French Army, to the attention of the Senate. It is about time to do something with the case. Fenclard will serve out his term before Secretary Bayard can be expected to do anything. The French authorities snap their fingers at him.

TELEGRAPHIC BRIEVITIES.

—Dr. William A. Hammond, the eminent surgeon, is dangerously ill in New York with an ugly abscess in the face. He is not expected to recover.

—E. P. Duplex, a colored man, has been elected Mayor of Wheatland, California. He is the first and only colored man ever elevated to the position of Mayor in any California town.

—Senator Stewart presented a resolution yesterday looking to an investigation of the imprisonment of John Fenclard, a naturalized American, into the French Army.

—New York fears that there will be a bear famine in that city. All the breweries are to be closed next Monday if the boycotts inaugurated by the Labor Union are not removed.

—At Albany to-day, in the New York Legislature, a resolution, providing for submission to the people of a prohibition amendment, was adopted. The Republicans voted for and Democrats against it.

—Nels Elson Holmg was hanged at Fergus Falls, Minnesota, yesterday afternoon for the murder last May of his employer's daughter, a young girl of 16, whom it is thought he ravished before he committed the deed.

—Mrs. Grassie G. Bulkley committed suicide in Washington on the 12th inst. by taking poison. Mrs. Bulkley was the only daughter of Judge Curtis W. Hillyer, and her elopement with young Bulkley some months ago caused quite a sensation. She separated from him after marriage and went to her father's house. A few days afterward she went to live with her husband, and after a short time returned to her parents.

A Horrible Story.
GALVESTON, April 14.—A Brownsville special says: One of the men bitten at the Muerio ranch by the mad wolf that bit Chamberlain, who is now in Paris under Pasteur's treatment, has become mad and fled to the woods. He appeared near the leaders ranch yesterday, and seizing a 6-year-old child of Manuel Cantu, bit and tore it to pieces.

Shooting at Sacramento.
SACRAMENTO, April 13.—This afternoon George Buckworth shot twice at Charles Bull, a barkeeper, in front of a K street dive. One shot went wild, but the other caught Bull right in the under part of the right arm, near the armpit. The wound is not serious. The cause of the difficulty is an old grudge. Buckworth is an artist.

What Anschlag's Brother Says.
LOS ANGELES, April 14.—A letter has been received here from Germany from a brother of Fritz Anschlag, the condemned Garden Grove murderer, with \$100 for the latter's legal expenses. The writer says that Anschlag was sent away from home because he was an imbecile.

A Lynching Party Foiled.
GLOBE, Ariz., April 14.—An attempt was made this morning by six masked men to break open the County Jail for the purpose of taking out the prisoners Burns and Blevens and lynching them. The prisoners' cries gave the alarm and the mob made their escape.

ONE OF THE LOST ARTS.

Merrill Talks About Cleveland's Message and the Wool Measure.

WASHINGTON, April 13.—The Senate this afternoon took up the motion to refer the President's annual message, and was addressed by Merrill.

He said the President appeared to deprecate a discussion of protection and free trade, and with wonderful simplicity forthwith proposed to recommend absolute free trade in wool. He would by this measure cut the jugular of every sheep in the country and argue with the owners that they would be better off without them, or that they lost more than they gained by protection. Deducting the protective duty imposed for the benefit of American wool, or ten cents per pound, the value of Texas wool in New York and Boston markets would suddenly drop to four or six cents per pound. No State would continue to raise wool at that price. Wool-growing in the great State of Texas, with an area larger than that of Germany, France, Spain or Italy, would be known as one of the lost arts. The prodigious losses to be sustained from abandonment of sheep husbandry was a problem of difficult solution. He deprecated the attempt to incite a panic in financial affairs because of an annual surplus of \$50,000,000. The maintenance of a bimetallic system of coinage and the preservation of a currency of both gold and silver was liable to be affected. Were the rates of duties to be placed a mere trifle in favor of foreign importations, an excess of imports over exports would soon appear and turn the balance of trade against this country. This could not continue long before gold would command a premium and find its best market as a commodity to be shipped abroad.

HATTIE'S PITIFUL PLEA.

She Tells How Harlan Ruined Her and How He Came to His Death.

LOS ANGELES, April 13.—The statement of the attorneys for the defense, made yesterday, that Hattie Woolsten would take the witness stand in her own defense this morning, caused Judge Cheney's Court to be terribly crowded with spectators. When the Court convened the excitement was fearful, especially when the defendant took the stand and told how deceased had accomplished her ruin.

She said that she had been to him to have some teeth extracted and that Harlan had given her a preparation to drink, under the pretense that it was necessary for her to take it in order that the operation might be successfully performed. She took it, and, becoming unconscious, found that he had assaulted her when in that condition.

She then told how she had tried suicide when she discovered that Harlan was married; how she had been finally induced to take a last ride with Harlan and had been driven by him to the barn at Compton. There Harlan again attempted to take liberties and she had drawn a revolver which she had purchased that morning to kill herself with and pointed it at her heart. Harlan tried to take it from her and in the struggling it was thrice discharged, the last time into Harlan's head.

At this period in the defendant's story to the Court she became exhausted and a recess was taken until this afternoon.

BOULANGER AND BISMARCK.

Prospects of Troublesome Times in France and Germany.

NEW YORK, April 14.—The Times' London correspondent cables that there is still nothing but Boulanger and Bismarck in the European papers. The electoral campaign in the Department of Nord shows that the great excitement current seems to be running steadily in the direction of Gen. Boulanger.

Every Boulanger speech is made up of eulogy of the latter and attacks on Jules Ferry. Already in various departments 230,000 votes have been cast for him, and the department of Nord will increase it to 400,000. All this is greatly ominous for the Republic.

Prince Bismarck has not won his fight. This is evident from the fact that he gives his word of rebuke to the infatuated partisans of Breslau, Leipzig and Dresden who are holding meetings and asking the Kaiser on no account to lose the services of the Chancellor.

It is noteworthy that the National Liberal party is foremost in this undignified work. There are no trustworthy reports of the progress of the dispute inside the palace of Charlottenburg, but there is a growing belief that Prince Hohenlohe, Stadtholder of Alsace-Lorraine, has been offered the post of Chancellor in succession to him. There are also signs of serious political divergence between the Kaiser and Chancellor.

CONKLING.

The Doctors Say His Chances of Recovery are One in Six.

NEW YORK, April 13.—Dr. Anderson left the house at 7:30 and returned soon after 8. He said: "Conkling rested well all night and slept quite as well as the night previous. He only awoke when called upon to take medicine at a quarter past 8."

Mrs. Conkling came down stairs. There was a marked change for the better in her appearance. The faithful wife had enjoyed a good night's rest. She spoke hopefully about her husband. The doctors, she said, had spoken to her in the most encouraging terms with regard to Conkling's condition.

At 9:30 Dr. Barker said that the patient's chances of recovery were one in six.

Dr. Barker issued the following bulletin at 2:30 P. M.: "For the last two and one-half hours Mr. Conkling has been sleeping quietly. This morning he walked around a little bit. He has taken sixteen ounces of milk since 1 P. M., and there is a little improvement since this morning."

When Barker entered the sick room this afternoon, Conkling woke up and recognized him, but immediately after went to sleep.

It is understood that Mr. Hoar of Massachusetts aspires to be Secretary of State in the event of the election of a Republican President.

The Great and Pressing Need of Reservoirs.

Few people, says the *Enterprise*, can now be found who do not understand that great benefit would accrue to the state from a well-arranged system of water storage, but of the many who realize that large returns would follow the outlay, few fully comprehend its vast results in the increase of wealth and resources. Much of the now useless land would be reclaimed; of course not all, but enough to repay from its yield in a few years the entire cost of construction of the reservoir which are needed to equalize the flow of water. This, however, is not the final reward of the enterprise. Over the State are numbers of districts rich in minerals which cannot be prospected by poor men, owing to the difficulty and cost of obtaining supplies. Poor men, as a rule, are the prospectors, and districts distant from established camps, or from agricultural regions where food can be purchased, are neglected through the inability of the adventurous miner to provide himself with axes and transportation. The addition of belts of cultivated land, arising from the utilization of all the water that flows from the mountains will furnish many bases of supplies for the hardy men who develop the resources of the State and enable them to work more places and do better work. It is not to be denied that every acre of land added to the arable area is a permanent and valuable increase, and that the value of the land of Nevada as agricultural land has been under-rated until within a few years, but the grain and hay-stocks of the State will always be tributary to the ore-dumps. They will assist the prospector in finding mines and the miner in developing them, and the totals of actual returns from the storage of water, if tabulated, will begin with the largest sum placed to the credit of the mineral output.

BREVITIES.

DR. PRENTICE RETURNED.

What the London "Times" Says of the Great American Physician.

A case of wonderful and most remarkable character was reported at the London Clinic to-day, which was the cause of no little discussion among some of our leading specialists. It also demonstrates the rapid advancement of the surgical department in the medical world. The case was reported by an American physician, who for the past few weeks has been assisting and operating here.

The case spoken of above is that of one Chat Roberts of Chat P. O., Lassen county, Cal., who for ten years had been growing deaf until the hearing in one ear was totally lost. It is said that Mr. Roberts consulted at different times with leading physicians, who told him nothing could be done to restore his hearing, as the natural passage leading from the throat to the inside of the ear had permanently and totally closed up by catarrhal inflammation.

This is the passage that the air passes through sometimes when we attempt to blow the nose but holds the nostrils closed and the ears fill with air, causing a puffing, dizzy feeling in the head. It is called the eustachian tube. It often becomes obstructed through catarrhal inflammation, but in the case of Chat Roberts the sides had entirely healed together so that all ordinary appliances were useless in endeavoring to open the opening that would be permanent.

Dr. Prentice hit upon the happy method of partially digesting silk worm gut, which when forced into the opening reaching from the throat to the ear was allowed to remain. Thus the sides of the newly made opening were prevented from reuniting until all inflammation passed away, after which the partially digested gut became absorbed, leaving a permanent and natural opening again.

Dr. Prentice's ingenious method is well thought of and being tried with a marked show of success. Dr. Prentice is deserving of the highest encomiums for his intelligence and ingenious methods of research.

DR. PRENTICE.

Return of the Eminent Specialist.

Leading Hospitals of Europe.

We are pleased to chronicle the safe arrival and return to America of Dr. Prentice. Less than one year ago the Doctor visited Reno and Virginia City. The remarkable surgical operations and the successful treatment of cases, previously considered incurable, which the Doctor effected while here, are fresh in the memory of all—have gained for him a reputation seldom attained in his profession. It is a well-known fact that Dr. Prentice invariably devotes one year in three in an extended visit to the hospitals of Europe. Notwithstanding that he was having an enormous practice, and earnestly solicited to prolong his stay here, he was reluctantly compelled to shorten his visit and make his customary visit to the Old World. He promised, however, to return, and is now on his way to Nevada. He visited the leading hospitals of Ireland, Scotland, England, Germany, Austria, Belgium, France, the Principality of Monaco, Italy, etc. He assures his many patients that he has spared neither time nor money to acquire all the latest methods and scientific treatment used in the Old World. He will arrive from the East and go direct to Virginia City, where he will treat all cases of strabismus, or cross-eyes, hemorrhoids or piles, stammering and the many ills for which he is renowned in effecting permanent cures. His visit to Virginia City will commence on the 24th of April, for one week, after which he will return to Reno.

RAILROAD TALK.

A Hitch in the Proposed Extension of the C. & C. Road.

A press dispatch from New York says: The American Finance Company of this city is endeavoring to form a syndicate of capitalists to purchase that part of the first mortgage 6 per cent. forty-year bonds of the San Pedro, Los Angeles and Utah Railroad Company, issued on account of the construction and equipment of the proposed section of 175 miles. The San Pedro, Los Angeles and Utah Company's project is to give the Carson and Colorado railroad a connection with the coast on the south.

D. O. Mills has frequently stated lately that he seriously considered the building of an extension of the Carson and Colorado road. The San Pedro, Los Angeles and Utah seems to have stepped in ahead. Mills says that the new company has no connection with the Carson and Colorado road. The latter has its plans for an extension well matured, awaiting only an inspection of territory by Mills, who will not now say that his line will be built as proposed. "I do not know that the building of the San Pedro, Los Angeles and Utah will cause us to change our plans, but we are not ready to go ahead with the work just now," said Mr. Mills.

NEVADA'S GARDEN CITY.

The Auction Sale of Reno Town Lots Attracting General Interest.

The Virginia Chronicle says the announcement of an auction sale of town lots in Powning's Addition at Reno, April 21, is creating widespread interest among residents of this city, many of whom have already signified their intention to secure a home in the Garden City of Nevada on the banks of the Truckee river, the pellucid waves of which have their source in the gem of the Sierras.

The level plain on which the town is situated affords many pleasant drives. That to the suburban village of Glendale is not surpassed by any on the Pacific slope. The road, smooth as the silk, winds through smiling meadows with glimpses of the Truckee's sparkling flow shining at intervals through the foliage of the trees which line its emerald banks.

The town is growing at a surprising pace and will in a few years rival Sacramento, Queen of the inland cities of California, in population and the rural beauty of its surroundings.

Jacobs' Announcement.

S. Jacobs, the tailor, returned from the Bay this morning, and will soon be ready to display an extensive stock of fine cloths which he purchased while there. He has engaged experienced workmen and is prepared to take orders for dress suits, business suits, etc., at prices which will satisfy all. He also selected a complete assortment of furnishing goods, hats, etc., which he will sell at extremely low figures.

How in the Azyum.

A few days ago J. Bell and Bechtell had a row at the Insane Asylum. Bechtell backed Bell up against the wall and tried to tie a knot in his windpipe. Great confusion and music in the air. The Reno papers overlooked the item entirely.—*Carson Appeal*.

The body of James Tennent, a miner of Indian valley, Plumas county, California, was found in an old prospect shaft on the 6th inst. A pistol was found in the forehead leads to the belief that he was assassinated, and citizens have offered a reward of \$1,250 for the arrest and conviction of the murderer.

Good News for Miners.

Senator Stewart has got his bill to grant the selling of mineral lands in Territories to aliens through the Senate, and there should be no trouble about securing the same legislation in the House. This is as it should be. It was a stupid law which interposed an obstacle to mining by declaring that an alien should not have title to mineral ground in the Territories, and we were certain from the first that Senator Stewart would not let a session expire without having the matter fixed. It will be good news to miners.—*Salt Lake Tribune*.

LOCAL AND GENERAL INTELLIGENCE.

What the London "Times" Says of the Great American Physician.

A case of wonderful and most remarkable character was reported at the London Clinic to-day, which was the cause of no little discussion among some of our leading specialists. It also demonstrates the rapid advancement of the surgical department in the medical world. The case was reported by an American physician, who for the past few weeks has been assisting and operating here.

The case spoken of above is that of one Chat Roberts of Chat P. O., Lassen county, Cal., who for ten years had been growing deaf until the hearing in one ear was totally lost. It is said that Mr. Roberts consulted at different times with leading physicians, who told him nothing could be done to restore his hearing, as the natural passage leading from the throat to the inside of the ear had permanently and totally closed up by catarrhal inflammation.

This is the passage that the air passes through sometimes when we attempt to blow the nose but holds the nostrils closed and the ears fill with air, causing a puffing, dizzy feeling in the head. It is called the eustachian tube. It often becomes obstructed through catarrhal inflammation, but in the case of Chat Roberts the sides had entirely healed together so that all ordinary appliances were useless in endeavoring to open the opening that would be permanent.

Dr. Prentice hit upon the happy method of partially digesting silk worm gut, which when forced into the opening reaching from the throat to the ear was allowed to remain. Thus the sides of the newly made opening were prevented from reuniting until all inflammation passed away, after which the partially digested gut became absorbed, leaving a permanent and natural opening again.

Dr. Prentice's ingenious method is well thought of and being tried with a marked show of success. Dr. Prentice is deserving of the highest encomiums for his intelligence and ingenious methods of research.

DR. PRENTICE.

Return of the Eminent Specialist.

Leading Hospitals of Europe.

We are pleased to chronicle the safe arrival and return to America of Dr. Prentice. Less than one year ago the Doctor visited Reno and Virginia City. The remarkable surgical operations and the successful treatment of cases, previously considered incurable, which the Doctor effected while here, are fresh in the memory of all—have gained for him a reputation seldom attained in his profession. It is a well-known fact that Dr. Prentice invariably devotes one year in three in an extended visit to the hospitals of Europe. Notwithstanding that he was having an enormous practice, and earnestly solicited to prolong his stay here, he was reluctantly compelled to shorten his visit and make his customary visit to the Old World. He promised, however, to return, and is now on his way to Nevada. He visited the leading hospitals of Ireland, Scotland, England, Germany, Austria, Belgium, France, the Principality of Monaco, Italy, etc. He assures his many patients that he has spared neither time nor money to acquire all the latest methods and scientific treatment used in the Old World. He will arrive from the East and go direct to Virginia City, where he will treat all cases of strabismus, or cross-eyes, hemorrhoids or piles, stammering and the many ills for which he is renowned in effecting permanent cures. His visit to Virginia City will commence on the 24th of April, for one week, after which he will return to Reno.

Fryer's Abletone Ointment—Made from the gum of the Abietene Tree, "Pinus gabrielliana," guaranteed for Rheumatism, Catarrh, Burns, Old Sores, etc. Price, 25 cents. Sold by W. Pinner. All genuine Abletone preparations bear the fac-simile signature of D. F. Fryer.

If you have a cold, cough, bronchitis or any form of throat or lung disease, do not neglect it. Fryer's Cherry Pectoral, if promptly used, will speedily relieve and cure all ailments of this character.

An Extended Popularity. Brown's Balm is a household remedy for many years, and has been the most popular article in use for relieving Coughs and Croup throats.

ROYAL BAKING POWDER.

The motto of California means, I have found it. Only in that land of sunshine, where the orange, lemon, olive, fig and grape bloom and ripen, and attain their highest perfection in mid-winter, are the herbs and gums found, that are used in that pleasant remedy for all throat and lung troubles.

Santa Abie, the ruler of coughs, asthma and consumption. Osburn & Shoemaker have been appointed agents for this valuable California remedy, and sell it under a guarantee at \$1 a bottle. Three for \$2.50.

Try California Cat-R-Cure, the only guaranteed cure for catarrh. One dollar, by mail \$1.10.

A Report Denied.

EDITOR GAZETTE—I was told by a party yesterday that a report was going in Reno that I saw the trainmen kick the French boy, who got hurt Sunday night, off the train. I deny the report. I did not know he was on the train and did not see him since Sunday morning.

POLITICAL POINTS.

Oliver Roberts wants to be Sheriff of Ormsby county.

The local Democracy has as yet shown no signs of life.

The leaves and fishes are the desire of every politician's heart.

A. C. Cleveland is said to desire the Republican nomination for Congress.

Washoe county Republicans have little to say regarding the ticket they will place in the field this year.

It is conceded that Senator Evan Williams of Ormsby county will be selected as one of the delegates to the Chicago Convention.

T. V. Julien, R. H. Lindsay, D. Allen and Pierce Evans are mentioned as possible candidates for the office of District Attorney of this county on the Republican ticket.

Messrs. Leonard, Murphy and Bartine are actively canvassing for the Republican nomination for Supreme Judge. As a nomination is equivalent to election, a lively and spirited convention fight may be expected.—*Carson Tribune*.

The Eureka Sentinel says it requires riper statesmanship than is to be found in Governor Alger of Michigan for Presidential favor. The trouble with the Democracy of Nevada is that it is run by a lot of white-necked geese who are getting entirely too ripe—they are beyond that stage when they were able to absorb young blood.—*Enterprise*.

OSBURN AND SHOEMAKER.

\$30,000. Mrs. Howard offers her ranch for sale. The ranch is on the Virginia road, the most fertile of the country roads in Nevada. It is located eight miles from Reno and in a fertile agricultural section. The ranch consists of about 200 acres of valuable water right. The ranch has long had the reputation of being one of the most productive of its size of all the ranches in the Truckee Meadows. This year it has produced 80 tons of hay, pasture for 200 head of stock, vegetables and other products in value about \$3,000. By the expenditure of a few hundred dollars the ranch could be made to be even much more productive than it is at present. The soil is admirably adapted to the raising of alfalfa, stock and vegetables. It has an excellent house, barn and improvements. Price, \$30,000; 1/4 cash and the remainder in five equal annual installments. Interest at 5 per cent. per annum.

\$15,000. A Santa's ranch located east from Reno is offered for sale. It consists of 400 acres, and will be sold on easy terms of payment. There is on the place a good house of eight rooms, two barns and other buildings. The place has plenty of fine irrigating water. The ranch yielded last year 500 tons of hay, and pasture valued at not less than \$1,200. The total valuation of this year's yield is not less than \$3,000. As the ranch consists of city of meadow and pasture land, the expense of running the place is exceedingly small. The ranch is especially desirable as a stock range and for this purpose would yield a handsome profit on the amount invested.

FOR SALE—Lots 10, 11, and 12, in Block 12, Marsh's Addition, south side of river, desirable location in Reno for the purpose of building (hard finished) and shed; lots cleared; size, each 30 by 140. A bargain.

\$300. Lot 30x175 feet, on the Virginia road, short distance from court house; a very desirable location, and the best house in Reno for the price. Perfect view, ditch flows through the property.

80 ACRES OF LAND under improvement; good buildings and fence; 100 acres in alfalfa; choice orchard—600 bearing fruit trees; 1,000 nursery trees; good well. Situated 1/2 mile from the C. P. railroad depot, Reno.

FOR SALE—Boca and lot on east side of Virginia street, one door north of fourth street; lot 20 by 121, house of five rooms. A very desirable locality.

FOR SALE—Lot 12x15 ft. by 140 ft., on east side of Virginia street, on the residence of B. F. Leale. This is a very desirable piece of property.

40 ACRES OF LAND; 28 acres in alfalfa; 1,200 forest trees, all under cover. Situated 1/4 mile from railroad depot. B. F. Leale's land, beautifully situated for residence.

560 ACRES; 100 acres enclosed by a barbed wire fence, 20 acres under fine cultivation; balance wild land—good for pasture. Will cut 250 tons alfalfa this year. Two acres of young and bearing orchard; good seed land.

Perfect Title to 56 inches of Water.

New two-story house of three rooms and finished; good barn. Situated 3/4 mile from Reno. \$10,000 down, balance on time at reasonable interest.

THE MOST LOVELY PORTION OF RENO.
FACING THE TRUCKEE—THE ARISTOCRATIC RIVERSIDE AVENUE DRIVEWAY—SPLENDID SEWERAGE—HEALTHFUL LOCATION AND SAFE FROM FIRE.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town, this addition faces the beautiful Truckee River, and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is, it is more exempt from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before buying elsewhere, Parties will do well to look at these Lots.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them. When these are clogged and choked with matter which ought not to be there your lungs cannot half do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Beecher's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon it.

Why endure sleepless nights, with that dry hacking cough when Frer's A Biente Cough Balm will give you rest. (It contains no Opium.) Price, 75 cents. Sold by W. Pinner. All genuine A Biente preparations bear the fac-simile signature of D. F. Fryer.

LIFE RENEWER.

Montana Horses.

The number of thoroughbred, pedigreed horses that are coming into the territory this spring is an indication of the general prosperity of this branch of the stock business. That this territory is pre-eminently the breeding ground for horses, sound in wind and limb, there can be no question. That it is being recognized as such by parties seeking work, roadsters, trotters or running horses can be easily demonstrated. There can be no question but that any one in search of any kind of a horse, or span of horses, or a four-in-hand team, can find just what he wants in this territory. A horse having been bred and raised here is possessed of sound lungs, in other words, his wind is wood. There is to-day as good blood in the well-bred Montana horse as can be found in any class of horses in any State in the Union. There has been as much money paid out for thoroughbred horses for breeding purposes in Montana, in the last four years as has been paid by any other State or territory in the United States during the same length of time. Breeders are just as careful and just as familiar with the record book as they are in Kentucky. The consequences of this care and attention are easily discernable in the fact that Montana is now recognized and entitled to recognition as being, as before stated, pre-eminently the breeding ground for horses sound in wind and limb.

REPUBLICAN PRIMARIES.

AT A MEETING OF THE REPUBLICAN County Central Committee, held at Reno, March 18, 1888, it was ordered that a primary election be held by the Republican party of Washoe county, on

Saturday, April 28, 1888.

For the purpose of electing fifteen delegates to the State Convention, to be held at Winnemucca, on the 15th day of May, 1888; ordered that the delegates be apportioned as follows:

Reno 7, Glendale 1, Browns 1, Wadsworth 3, Franktown 1, Washoe 1, Verdi 1, Pyramid 1, Salt Marsh 1. Total 18.

The delegates receiving the highest number of votes cast throughout the county, subject to the apportionment above mentioned, shall be declared duly elected.

It was also ordered that an election be held on the same day for the purpose of electing delegates to the County Convention, to be held at Reno on

Monday, September 3, 1888.

At 10 o'clock A. M., the said delegates to be

apportioned as follows:

Reno 7, Glendale 1, Browns 1, Wadsworth 3, Franktown 1, Washoe 1, Verdi 1, Pyramid 1, Salt Marsh 1. Total 18.

The polls are to be kept open from 1 p. m. until 6 p. m.
